

# GEO EXPLORE STORE

GEO-EXPLORE STORE (PTY) LTD

SUPPLIERS OF GEOLOGICAL & EXPLORATION EQUIPMENT

# ***Introduction***

*“Geo-Explore Store (Pty) Ltd was established in 2009, to meet a demand in the market for a service orientated exploration and geological product specialist.*

*Our staff had 5 years experience in the exploration business and 30 years experience in the exploration supply market. We are perfectly equipped to provide the full range of services, products, logistics, advice, back-up and price for all needs relating to geology, exploration, mining, sampling, surveying and drafting.*

*We endeavor to offer service excellence with flexibility and dynamics to ensure we are there to support the spectrum of needs presented by the exploration market.*

*“When you are stuck in the middle of nowhere, we are right beside you!!”*

# COMPASSES

## TruArc™ 15

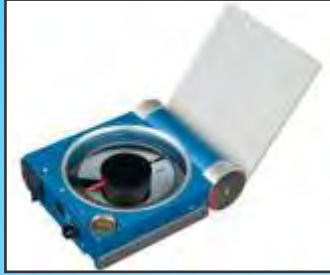

Drawing upon our classic 15TDCL, the all new TruArc™ 15 is upgraded with a full coverage mirror cover for extra protection, and the TruArc™ Global Needle system with Ever-North™ rare earth magnets. The luminous, high-visibility ring lends low-light and night time performance, and the triple clinometer system gives fast and accurate reference information for avalanche safety or earth-science field work.

Code: BRTARC15

## Breitcocla

Breithaupt top of the line geological compass, glass base, superior damping, with leather case. A must for structural or engineering geologists. German engineering assures long lasting quality and performance.

Code: BREITCOCLA

## Breitgekomp

Breithaupt geological compass, allows for dip direction measurement, inclination and declination adjustable on site, with case. A perfect mid range quality compass.

Code: BREITGEKOM

## Gebru

- New innovative design
- Brunton type measurement of strike and fall
- Waterproof high quality one-piece housing
- Inner circle diameter 48mm with graduation: 1° / 1gon
- Inclination adjustable
- Declination adjustment without opening the housing
- Adjustable clinometer with level and measuring range  $\pm 90^\circ$
- Spirit level
- Mirror and innovative integrated diopter

Code: GEBRU

## Brunton BR5020

Brunton transit geological compass, metal body, with leather case. Measures dip and strike and ideal for sighting.

Code: BR5020

# COMPASSES

## Brunton BR5008

Brunton Transit geological compass, composite ployfibre body, with leather case. Measures dip and strike and ideal for sighting.

Code: BR5008

## Brunton BR5010

Top of the line in Brunton geological compasses. Offers the basic Brunton format with the addition of a dip gauge on the lid hinge for dip direction measurements. With leather belt case. Also ideal for sighting.

Code: BR5010

## Axis™ Transit

A twist on the traditional transit!  
The Axis™ is the only transit in the world that can take simultaneous measurements of strike & dip, trend & plunge, dip & dip direction, or bearing & angle, making data collection more efficient and intuitive. Invented by the geoscience educators who are now the owners of Brunton, this transit is revolutionizing how geological measurements are made. Leather case is included.

Code: BR5012

## Omnislope

Brunton Omnislope for angle, height or percent measurements, available in lensatic sighting.

Code: BRCML

## Omnisight

With both forward and reciprocal bearings, plus 90° quadrants and 6400 point MILS, the OMNI-SIGHT spot-through compass offers the convenience of multiple precision instruments in one hand-held unit. Steadfast aluminium housing ensures ruggedness and reliability, and the internal rare-earth magnet guarantees accuracy and resists magnetic interference.

***“Other compasses available on request. Leather compass cases also available.”***

Code: BRSML

# REPAIRS

***Repairs, service and calibration of compasses and survey equipment undertaken.***

# MARKING AND LABELLING

## Paint Markers

Imported paint markers by Edding, UV and water proof so these are permanent. Available in a range of colours, boxes of 10.

Code: EDMP750

## Manilla Tags

Buff manilla tags in a range of sizes, reinforced hole, great for sample bag tagging. in boxes of 1000.

7x4cm	2 3/4 x 1 3/8"	#1	11x5.5cm	4 1/4 x 2 3/8"	#4
8.5x4cm	3 1/4 x 1 5/8"	#2	12x6cm	4 3/4 x 2 1/8"	#5
9.5x5cm	3 3/4 x 1 7/8"	#3	13.5x7cm	5 1/4 x 2 5/8"	#6

Code: TAGSNO

## Plastag

Plastic sample tags, with hole, 65x75mm or 65x115mm, range of colours, per box 1000. Also in steel.

Code: PLASTA1&PLASTA2

## Sample Ticket Book

Standard wet strength paper sample tickets, pre numbered, one stub and two tear offs, in packs of 1000 tickets (10 books of 100) Custom tickets on request.

Code: SAMTAGT

## Aluminium Tags

Aluminium tags, easily engraved, with hole, in boxes of 1000 with ties, 8x2.5cm.

Code: ALUTAG1

## China Markers

Imported peel off markers, ideal for core or rock marking or photo labelling. Resistant to crumble and melt when used on hot or rough surfaces. Boxes of 12, Range of colours.

Code: CMMAR

# DRAFTING

## Pocket Stereoscope

These simple fold up pocket stereoscopes are ideal for photo stereo work in the field, available in 2x or 4x magnification.

Code: SOKPS4A

## Goniometer

Geo - Goniometer for reading bedding / structure off core and alpha / beta angles. Standard BQ, NQ, HQ, PQ

Code: GONIEGEO

## Steel Protractor

Steel 180 degree protractor with hinged arm. Useful for measuring features on core, robust and accurate.

Code: PROTSTEEL

## Rule Protractor

Imported 15cm ruler with protractor, handy pocket tool. For drafting or core work.

Code: RULEP

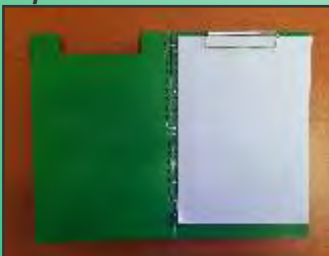

## Paper

Drafting, trace, graph, film, plotter paper on rolls, various widths and lengths.

Code: PAPDRAFT

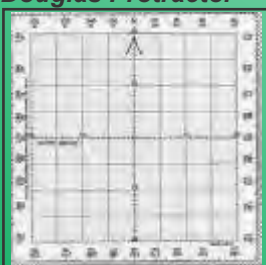

## Clipboard A4

Clip boards available in wood or aluminium, A4 or A3. With or without cover

Code: ENQUIRE

## Douglas Protractor

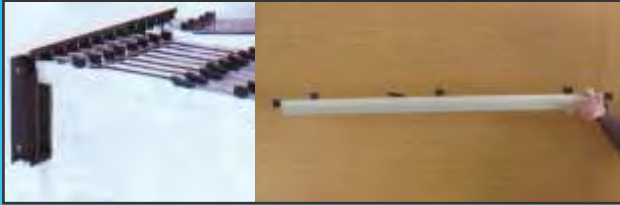

Useful plastic see-through square protractor, available in 12.5cm or 30cm. Circular protractors also available.

Code: DOUG125  
Code: DOUG250

# DRAFTING

## Map Hangers

Aluminium map hangers for data files.

Code: CABALUARM

## Data File

Open map cabinets, on wheels, aluminium clip style hangers (not included, see map hangers).

Code: DATA&DATAEXEC

## Map Hanging Tape

Map hanging tape, plastic, punched, in 40m rolls, cut to size as required.

Code: HANGTAP

## Map Tubes

Plastic extendable map tubes, ideal for transport or storage of maps, plans or presentations. 75 or 50mm diameter with shoulder straps.

Code: MAPCYC50&MAPCYC75

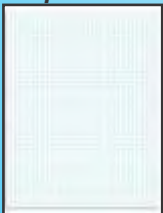

## Triangular Scales

Triangular scale rulers 30cm, 1:500/1000/1250/1500/2000/2500

Code: TRISCO1A

## Graph Pads

Graph paper in pads, A4 or A3.

Code: GRAPH3&GRAPH4

# CORE TRAYS, RACKING, LOG TABLES

## Core Trays

We manufacture a range of plastic and steel core trays to suite most drilling project needs. Custom trays on request.

See pages 8 to 10

## Racking Systems

We manufacture racking systems for our ( or other - custom) core trays, allowing safe, individual access to core trays.

See page 20

## Roller Logging Tables

Logging or sampling is made convenient and comfortable with our flat or angle roller logging tables.

See page 19

Ask us for assistance in designing a layout for your logging or racking systems if needed, we are here to help!

## Plastic Core Run Markers

Plastic core run markers, to mark pull interval/ depth. Also allows for recording of core loss/gain. Sold flat to save space, folds into a block. Fits into most core trays. Available in green or yellow as standard, other colours on request. Sold per pack of 500.

Also core tray labels.

Code: ENQUIRE

## Carry Boxes

Zinc alumine steel carry boxes, in BQ, NQ, HQ sizes. Custom sizes on request. Foam insert in lid to hold core securely in transport, hinged lid. Fastening eyelets, shoulder carry straps and carry handle. BQ 6 channel / NQ 5 channel / HQ 4 channel

Code: ENQUIRE

## Core Tray Lids

Made of zinc alumine steel, to fit all our core trays.

Lie on or clip on lids, for all core trays, including sheet of foam to hold core in place in transport, does not affect the stacking of core trays, suitable for transport of core in trays from drill site or protecting top tray in a stack if stored outside

Plastic lid for EVO II Trays  
Pending (R+D)

Code: ENQUIRE

# GEO-EXPLORE STORE

GEO-EXPLORE STORE (PTY) LTD

## SUPPLIERS OF GEOLOGICAL & EXPLORATION EQUIPMENT

Manufacturers of Core Storage Equipment • Zinalume Core Trays • Plastic Core Trays • Racking Bays • Rock Chip Trays • Core Blocks

### BENEFITS OF USING PLASTIC CORE TRAYS:

- **NON-CORROSIVE / DURABLE**  
Our plastic trays are non-corrosive therefore allowing the long term storage of valuable core samples. These trays are UV protected ensuring no degradation of the plastic, they are robust and reinforced with ribs.
- **NON-MAGNETIC**  
This allows accurate results when testing for magnetic susceptibility.
- **CHEMICALLY INACTIVE**  
By using our plastic core trays you will have no risk of contaminating your core samples.
- **UV STABILIZED**  
Due to the added UV stabilizers, the lifespan of the plastic core tray is extended. The black pigment of the plastic core tray offers a reduction in glare and an optimal contrast when photographing the core.
- **NO SHARP EDGES**  
Our plastic core trays have no sharp edges thus making them a safer option by reducing hand injuries - resulting in less down time.

### PRODUCT FEATURES:

- A ruler is engraved on the side walls of the tray for assisted measuring of core samples.
- All sizes of the plastic core trays use an interlocking system for stacking purposes. this not only provides an effective stacking fit, but eliminates any contact with the core from the tray above.
- Terracor plastic core trays nest into each other when 1 of the 2 core trays are turned 180 degrees to each other, thereby maximizing space when loading a container and thus reducing transportation costs.
- The plastic core tray also offers you a safe, stable handle system as they have two moulded handles per end thus ensuring optimal stability when lifting the tray.
- NQ, HQ and PQ plastic core trays are compatible to stack onto one another.

SIZE	DIMENSIONS	WEIGHT	No. METER STORED
NQ	1060mm x 430mm	2,9 kg	6
HQ	1060mm x 430mm	3,0 kg	5
PQ	1060mm x 430mm	3,0 kg	4

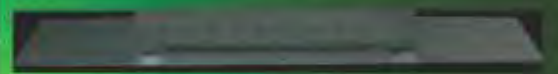

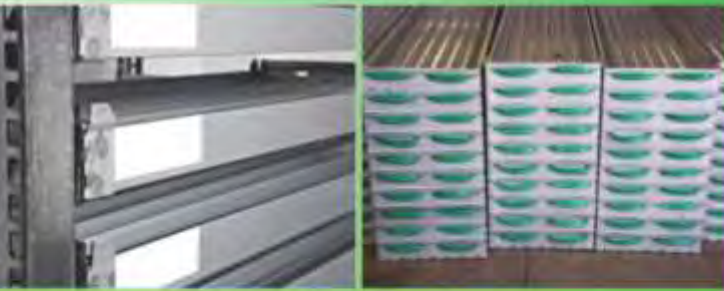

# GEO-EXPLORE STORE

GEO-EXPLORE STORE (PTY) LTD

SUPPLIERS OF GEOLOGICAL & EXPLORATION EQUIPMENT

Manufacturers of Core Storage Equipment • Zinalume Core Trays • Plastic Core Trays • Racking Bays • Rock Chip Trays • Core Blocks

## PRODUCT FEATURES

- 100% Interlocking & stackable
- Deep profile (ensuring core is securely held during transport from site)
- Raised side wall (contamination prevention)
- High grade Zinalume body & ends (corrosion resistant)
- 100% residual water drainage through optimally placed drainage ports
- Entire range supplied with various handle options which are compatible with existing storage bays
- All sizes available in both pre-fabricated or welded options
- 1.5m tray sizes supplied with dual handle system
- Reinforced tray for better stability & strength
- More rands per meter stored on BQ and HQ trays

## ACCESSORIES

- Removable Steel Handles
- Tray Lids (1m & 1.5m)
- Racking
- Carry Boxes
- Core Blocks
- Rock Chip Trays
- Goniometers

## SAFETY FEATURES

- No sharp edges (reducing work related injuries)
- Widened handle system for increased stability when lifting
- Safe stacking due to efficient interlocking

Trays available in Prefab and Welded  
More rands per meter stored on BQ and HQ Trays  
Plastic Trays now available.

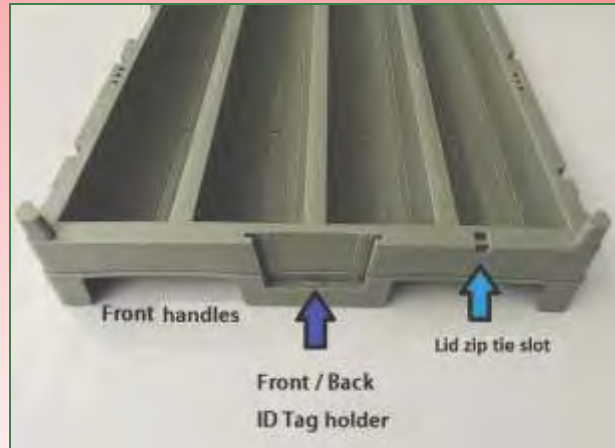

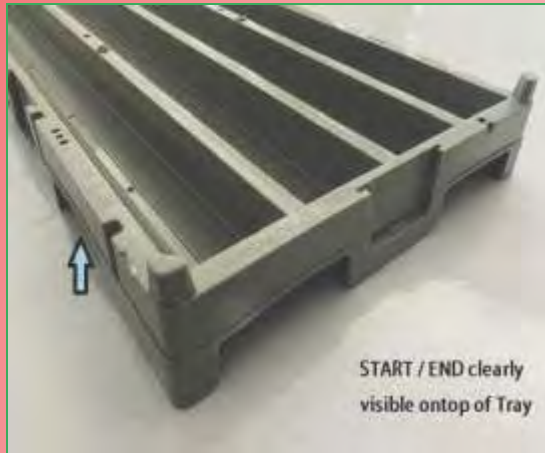

# GEO-EXPLORE STORE

GEO-EXPLORE STORE (PTY) LTD

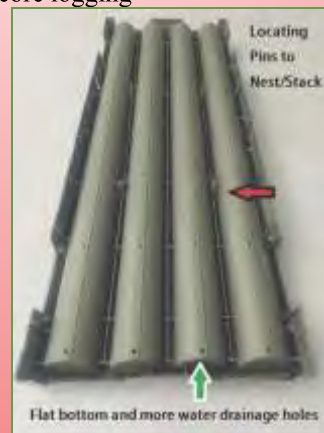

SUPPLIERS OF GEOLOGICAL & EXPLORATION EQUIPMENT

Manufacturers of Core Storage Equipment • Zincalume Core Trays • Plastic Core Trays • Racking Bays • Rock Chip Trays • Core Blocks

## NEW PLASTIC EVO2 CORE TRAY.

- ▶ Two molded handles on the front and sides this assists in being able to remove trays in and out of racking with ease as well as loading trays onto utility vehicles.
- ▶ Ribbing for added core support and water draining assistance.
- ▶ Support castle for more stable stacking on uneven ground.
- ▶ Additional stabilizing ribs to improve strength and integrity of the tray.
- ▶ Front and side identifier slots (credit card size ID tag)
- ▶ Clear START/END markings
- ▶ Tapered end walls to allow for easy retrieval of core sample.
- ▶ Universal core tray lid can be locked onto the EVO II with the use of zip ties.
- ▶ 10mm measuring platform, for assisted measuring of core samples.
- ▶ 100% recyclable material. Flat bottom for ease of movement on core logging

- ▶ Available in Black as standard, white as premium.
- ▶ Other colours on application.

# FIELD EQUIPMENT

## Haversack

Basic field haversack for samples or field gear.  
Also geologist field haversack with more pockets, +- 21 litres.

Code: HAVSAC

## Acid Bottle Cover

Quality leather belt pouch for the acid bottle.

Code: A/BCOVLTH

## Pen Mag

Pocket style pencil magnet with pivot for sensitive magnetism tests.

Code: PENMAG

## Scribe

Pen styled tungsten tipped scribe with a magnet.  
Tip is also reversible for replacement or simply for safe storage in your pocket.

Code: SCRIBE

## Streak Plate

Porcelain scratch plate 5cm x 5cm for mineral streak ID.

Code: STREAKP

## Torches

Range of brands and applications available

Code: MAGCHARGE

## Microscope

A range of quality microscopes are available for grain or hand specimen ID.  
Basic 20x / 40x and zoom mag are the more popular units.  
Top and bottom lighting.

Code: ENQUIRE

# FIELD EQUIPMENT

Os240

Wet strength note book, A5, field book cross section, top open, cover dark green.

Code: OSB240

Os241

Wet strength note book, A5, level book, side open, cover blue.

Code: OS241

Os243

Wet strength note book, A5, field transit, side open, cover dark green.

Code: OS243

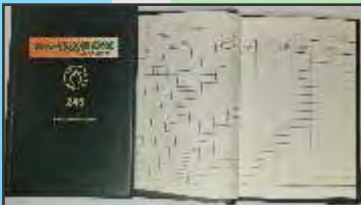

Os244

Wet strength note book, A5, field chain, top open, cover dark green.

Code: OS244

Os245

Wet strength note book, A5, field tach book, side open, cover dark green

Code: OS245

Os246

Wet strength note book, A5, field survey book, side open, cover brown.

Code: OSB246

Os247

Wet strength note book, A5, field vent book, side open, cover red.

Code: OS247

Os247A

Wet strength note book, A6, field vent book, side open, cover maroon.

Code: OS247A

# FIELD EQUIPMENT

## Os248

Wet strength note book, A5, sectional graph book 10ths, top open, cover dark green.

Code: OSB248

## Os248A

Wet strength note book, A5, sectional graph book, metric, top open, cover dark green.

Code: OSB248A

## Os251

Wet strength note book, A5, underground transit field book, side open, cover blue.

Code: OS251

## Lenses

We stock durable quality doublet hand lenses, ideal for field use, 10X18mm standard, 10X18mm/ 20X13mm combo lens, 20X15mm achromatic lens and 10X hastings triplet.

Code: H110 & H110&20

## Vests

Sleeveless field vests, durable, khaki, useful pocket distribution, also high visible reflective vests.

Code: JACK

## Hammer Holster

Leather hammer holster ideal for Estwings.

***“Also Estwing canvas hammer covers.”***

Code: HAMMERHOL

## Clino

Plastic fold-out 1m clino rule, brass clino hinge and sturdy level bubble housing.

Code: CLINORU

## Belt

Quality leather belt, range of sizes available.

Code: BELT/LEA

# FIELD EQUIPMENT

## Multi Tool

Multi tools are available in a range of spec and brands. Please ask for more information.

Code: ENQUIRE

## Acid Bottle

Plastic acid bottle, removable tip for easy re-filling, 30ml, 50ml.

Code: ADBOT

## Estwing Hammer, Leather

Estwing geological pick, leather handle, 22oz.

**Estwing**

Code: HAMLTHG

## Estwing Hammer, Vinyl

Estwing geological pick, vinyl handle, 22oz.

**Estwing**

Code: HAMVG22

## Estwing Hammer Long Neck

Estwing geological pick, vinyl handle, 22oz, long neck.

**Estwing**

*“Also chisel head, 14oz, claw and other Estwing hammers and products.”*

Code: HAMVGL

## Book Pouch

Quality leather belt book pouch, ideal for note books, pens etc. Also available in PVC.

Code: BKPCH

## UV Light3

This simple, portable battery powered UV lamp is ideal for field work to test fluorescence of minerals or scorpion awareness. Also more robust rechargeable units on request, with filters.

Code: UVLAMP

## 12 Watt Hand Scanner UV Light with UV Filter

(HS12W) This unit is supplied with a battery pack that clips on to your belt. The scanner can then be held in your hand for inspection purposes. The unit is supplied with a charger. The unit has got a 365nm (UV-A) and a 254nm (UV-C) lamp and is fitted with a UV Filter. This is essential for the inspection and detection of minerals and diamonds.

Code: UVLAMP22

# SAFETY EQUIPMENT

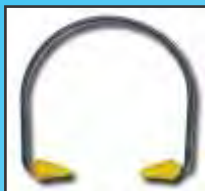

## Ear Plugs

Disposable ear plugs.

Code: EARPLUG2

## Ear Bands

Ear plugs on head band

Code: ENQUIRE

## Ear Muffs

Sturdy ear muffs ideal for more constant use (E.g. core splitters)

Code: EARMUFF

## Safety Pig Skin Gloves

Quality pig skin gloves, still allow dexterity.

Code: GLOVEPS

## Safety Gloves

Basic safety gloves, rubberised or candy strip.

Code: GLOVECS

## Safety Goggles

Enclosed safety goggles.

Code: GOGGLES

## Safety Specs

Safety spectacles, clear or tinted.

Code: SAFSPEC

## Gum Boots

Safety gum boots, with or without toe cap.

Code: ENQUIRE

## Hard Hats

Basic safety hard hat, peak or full miners brim, with or without lamp clip, available in different colours. Also available shade brims.

*“Also other safety gear available,  
e.g. shoes, boots, buggy whips, cones, amber lights and signage  
Pictures are indicative only”*

Code: ENQUIRE

# SAFETY EQUIPMENT

## Dust Mask

Disposable dust mask.

Code: DUSTMFFD2

## Recovery Kit

Vehicle recovery kits, standard kit offers range of standard equipment but custom kits can be assembled on request.

Code: RECOVERY

## First Aid Kit

First aid kits for traveller, vehicle or office/camp. As well as snake bite & gaiters

Code: ENQUIRE

# SAMPLING EQUIPMENT

## Grit Block

Aluminium oxide grit block for dressing or sharpening diamond saw blades, extends life and maintains productivity while cutting.

Code: GRITBLOCK

## Gold Pan

Mild steel gold pan, 15", based on the original three rib design, Also plastic gold pan, 14"

Code: GOLDPAN

## The Vanta™ Series

No matter the model, each Vanta handheld XRF analyzer is engineered for durability and analytical excellence. Evident manufactures Vanta analyzers to suit a variety of application and budget needs.

### Vanta Max

Our fastest, most capable Vanta analyzers feature exceptional performance for the most demanding applications, including mining exploration, mineral analysis, soil testing, and environmental analysis.

### Vanta Core

Vanta Core analyzers combine value with speed, low limits of detection (LODs), and a wide elemental range, making it the standard choice for fast alloy identification.

### Vanta Element™

Our entry-level analyzers offer affordable alloy identification, with the option to detect light elements on the Element-S model.

# SAMPLING EQUIPMENT

## Dip Meter

Water depth monitor, available in range of lengths, 50m - 300m flat cable. Also available bottom feeler attachment.

Code: ENQUIRE

## Auto Saw

Fully automatic core saw. Highly productive and offering the highest levels of operator safety, this machine is the bench mark for large sampling programs. Manufactured in Africa for Geo-Explore Store. Parts, service, repairs and training available locally.

Code: CORSPLAUTO

## Junior Saw

Junior core saw. Highly productive and offering the highest levels of operator safety, this machine still requires the operator to cut the core BUT still ensures hands are well away from cutting area. Manufactured in Africa for Geo-Explore Store. Parts, service, repairs and training available locally.

Code: CORSPJUN

## Mobile Core Splitter

Portable entry level core splitter, single phase, 220V, core is held in core guide so safety is taken into account. Also available on 3 phase, petrol motor options. The table allows for safe cross cuts using optional special holder.

Code: CORSPMOB

## Diamond Saw Blades

A range of diamond saw blades are available for all rock types and to fit all core splitting machines. Some have been tweaked for optimum performance in certain rock types, ask us for details.

Code: ENQUIRE

# SAMPLING EQUIPMENT

## Channel Bin

Galvanized channel sample bin, with handle, ideal for catching chips from trenching or channel sampling. Also available sampling chisel.

Code: CHANNELPAN

## Rifflers

Sample riffler or splitter. 50/50 with 3 capture bins, 1" (25mm) or 1/2" (12.5mm), powder coated steel. System nestles for ease of transport.

Code: RIF15/RIF25

## Three Tier Riffler

Heavy duty 3 in one riffler splitter, 16 X 1 1/4' slots, comes with 2 large capture bins, on wheels for mobility on site.

Code: RIF15/RIF25

## Density Scale

Table top density device. Comprises 3kg electronic scale, bottom hook, reservoir and scale platform. Based on weight wet/weight dry principle.

**NEW - Now with water drain tap**

**NEW- Now with limited overload protection**

Code: DENSITYSC

## Scales Electric

Flat bed, table top electronic scales in a range of capacities, and accuracies. Please enquire.

Code: ENQUIRE

## Scales Hanging

Hanging field scales for sample weighing, range of capacities, digital. 10, 25, 45kg. Please enquire.

Code: ENQUIRE

## Mineral Trays

Plastic mineral or chip trays. Available in 10 compartment units. The 10 compartment units can be joined together if required. Sturdy hinges and clips, UV stabilized clear plastic.

Code: CHIPTRAY10

## SAMPLING EQUIPMENT

### ROLLER LOG TABLES

Powder coated steel roller tables available to create a dynamic, ergonomic logging and sampling flow in your core shed. Supplied in kit form for compact shipping but simple assembly on site.

LED Lighting for tables available on request

Available in single width flat or double width angled.

Bends available in the flat system.

A photo stand is available to bolt onto the flat roller log table, complete with LED lights, camera / cell phone bracket (not included), and parallax triangles

# SAMPLING EQUIPMENT

## RACKING SYSTEM

Modular racking system to house core trays, allowing for individual access to core trays as needed.

Galvanised steel for long life.

2.1m high, generally 2 trays per level side by side, top and bottom cross members for maximum strength, feet have bolt holes so the system can be bolted to substrate (bolts not included).

Modular system can be added to as required.

Adjustable to suite all heights of core trays (BQ to PQ)

Manufactured to suite your particular core tray (1m / 1.5m, plastic, steel etc)

# SAMPLING EQUIPMENT

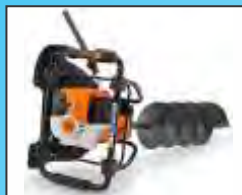

## Augers

Locally manufactured bucket augers, soil/clayey soil and clay styles available along with extensions and "T" handle.

Code: ENQUIRE

## Motor auger

Hand held motorized auger, petrol drive, range of flighted auger sections and extension bars as required.

Code: ENQUIRE

## Flexi Stack

Plastic re-usable sieve system. Lid, reciever and two clip together rings, 200mm diameter. Mesh, nylon or steel sold separately. Min 5m per order.

Code: FLEXI

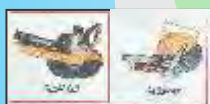

## Cut Off Machine

Petrol cutter, ideal for field channel or outcrop sampling, with water attachment and tank.

Code: CUTTER PETROL

## Pneumatic Cutters

Locally manufactured cutters, ideal for underground, pneumatic drives, single or double blade.

Code: CUTTERDOUBLE/CUTTERSINGLE

## Dry Pan1

Galv or stainless sample drying pans available, various or custom sizes.

Code: ENQUIRE

## Cable Ties

Plastic cable ties, ideal for closing sample bags, available in 10, 15, 20 or 30cm lengths, per bundle of 100. Also wire twist ties and twister tool, heavy duty stapler and staples.

Code: ENQUIRE

# SURVEY EQUIPMENT

## Measure Wheel

Rotosure measuring wheel. Basic or upgraded models available.

Code: ROTOSD

## Abney

Abney level for determination of angles or elevations.

Code: ABNEY

## Dumpy Level

Various dumpy levels available as well as tripods, staves and range rods.

Code: DUMPY

## Total Station

Various total stations and theodolites available.

Code: ENQUIRE

## Flags

One metre or half metre steel spring wire with PVC flags in range of colours, per bundle of 100

Half meter steel spring wire pin tags with plastic tag in range of colours, bundles of 100

Code: ENQUIRE

## Sola Clinometer

Accurate, portable angle measuring devise, incorporates protractor like scale, level bubble and magnetic base. Standard 13cm base, optional 50cm extended base.

Code: ENQUIRE

## Barrier Tape

Barrier/demarcation tape, red on white.  
Also yellow on black on request. 500m x 75mm.

Code: BARTAP

# SURVEY EQUIPMENT

## Steel tape

Steel measuring tapes, 3m and 5m locking and 50m and 100m on frame.

Code: ENQUIRE

## Fibre Tape

Fibre measuring tapes, 30m, 50m and 100m on frame.

Code: ENQUIRE

## Flagging tape

Plastic flagging tape in a range of colours. Standard 50m x 25mm rolls, however custom rolls on request.

Code: ENQUIRE

## Optical Square

Optical square for quick offsets, ideal for rudimentary grids or sampling programs.

Code: OPTSQ

# REFERENCE

## Books

Geological Dictionary, Geological Field Manual.

Code: BOOKS

## Ref Cards

Handy pocket size reference cards, riveted in corner and printed on durable card. Range of geological and drilling reference information.

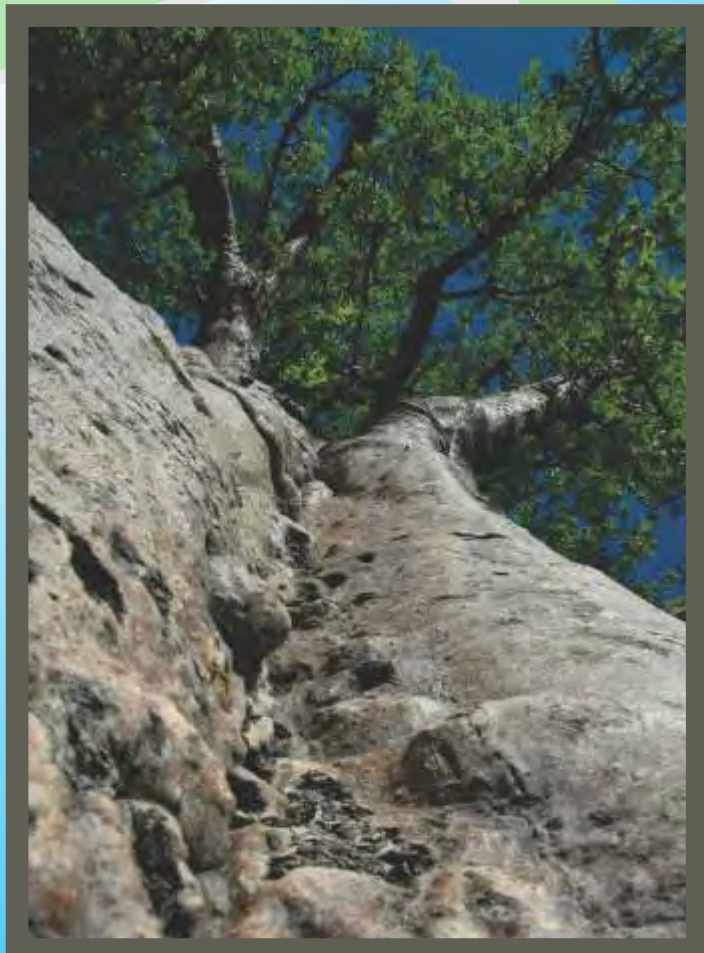

Includes two colour pages.

Code: REFCARD

# Geochem Envelopes

code	style	size	per box	storage box
GEOSPS	2D	75x125mm	500	GEOBXS
GEOSPS1	2D	97x140mm	500	GEOBXS 1
GEOSPL	2D	150x225mm	500	GEOBXL 2
GEOCHF	gusseted	80x100x50mm	500	GEOBXS
GEOSPF2	gusseted	90x150x50mm	500	GEOBXS 1
GEOSPF1	gusseted	135x180x100mm	500	GEOBXL 2
	Custom envelopes on demand			

## Geochem Box

Geochemical sample storage/transport boxes, to suite range of geochem envelope sizes.

## Geochem Envelopes

A range a kraft geochem envelopes with wire ties. Available in regular two dimensional of gusseted three dimensional sizes, in boxes of 500.

# Plastic Sample Bags

## Plastic Bags, Calico Bags, Poly Woven Bags

A range of plastic sample bags are available, all are clear, virgin plastic and contain UV stabilizers to ensure they last in the elements. Also available calico bags, 23 x 38 or custom sizes on request, and Poly woven bags can be numbered. Plastic tubing and plastic vials in a range of sizes and also a range of zipper seal bags.

Note: priced per 100 (unless indicated) BUT pack size is weight dependent.

material	size	micron	pack	comment
plastic	100x150	45	100	zipper
plastic	150x210	100	100	
plastic	150x250	45	100	zipper
plastic	200x300	100	100	
plastic	250x400	150	100	
plastic	300x500	150	100	
plastic	400x600	150		
plastic	500x800	250	50	
plastic	600x900	200	25	
polyweave	72X112			
polyweave	560x900	75gsm	each	
calico	20x30			
calico	23x38		each	
calico	46x76			
poly bulk bag	various		each	

# Camping

*"A full range of equipment is available for the exploration fly or permanent camp or individual."*

## Hand Held GPS Units

*"We stock the basic field units, however the full range of Garmin GPS's are available."*

**\*OTHER SYSTEMS ALSO AVAILABLE**
